

Dear Resident/Local Stakeholder,

Following on from our October newsletter, which outlined the planned Badsell Road closure, we wanted to let you know that we will be taking the opportunity to complete surfacing works during the closure this weekend.

The works are scheduled as follows:

- **Saturday 24 October:** 08:00–16:30
- **Sunday 25 October:** 09:00–13:00

The works will involve resurfacing a small section of the road, predominantly around the junction with Mascalls Park, where the new surface needs to be tied into the existing carriageway. This requires the full width of the road to be available to provide a safe working area.

We appreciate that these activities will generate noise and may cause some disturbance to nearby residents. We wanted to provide advance notice so you know what to expect over the weekend.

Completing these works while the road is already closed allows us to make the most of the current programme, particularly as we are already undertaking works around the Mascalls Park junction. This approach will help us minimise the need for further disruption as the scheme progresses.

Access to residential properties will continue to be maintained in line with the arrangements previously communicated.

Thank you for your continued patience and understanding while we carry out these essential works. If you have any questions, please feel free to contact me using the details below. All project information, including the diversion routes during the closure, is available on our project website: www.badsellroad.co.uk.

Kind Regards,

Emma Bates
Public Liaison Officer
Breheny Civil Engineering
